The Speaking.

The house was crowded to its utmost capacity last Saturday night to hear the Hon. A. F. Byrd, Democratic, candidate for Congress, speak in this city. Attorney R. R. Friend was present too and spoke first. He was introduced by Mr. J. A. Sewell. Mr. Friend made a splendid speech. Mr. Byrd following held his hearers attention from beginning to the end. He and Mr. Friend was frequently and loudly cheered as they revealed the unworthy reputation of the one John W. Langley in good style. These speeches have done much good for the Democrats in the county, and will help Powell to give an increased Democratic majority.

To Cut out 1911 Crop.

Farmers in Central Kentucky heartily approve of President LeBus' suggestion to cut out the 1911 tobacco crop in order to bring the trust to time. Rankin Roberts, a prominent farmer of Brannon, announces instead of tobacco he will plant fifty acres of sorghum cane and forty acres of tomatoes. He is also arranging to establish a cannery at Brannon to handle the tomato crop of himself and neighbors, according to a report sent out from Lexington.

The last Kentucky State Fair netted a profit of over \$20,000, all of which will be applied on a debt amounting to more than that sum. The attendance broke all records for that institution.

Whooping Cough

It is an old saying that whooping cough must run its course but the use of Dr. Bell's Pine-Tar-Honey has demonstrated beyond doubt that such is not the case. It can be cured by the use of this remedy.

Campaign Closes.

This is the last week of the campaign; about all has been done that can be done, in the way of work, and it now remains to get out the vote. If every Democrat will go to the polls, Tuesday, we believe that Floyd Byrd will be our next Congressman, and every Democrat that stays away adds to the uncertainty of his election. A voter may feel that his one vote does not amount to much, but the district probably has one hundred and fifty or two hundred voting precincts in it, and if half a dozen Democratic voters in each precinct remain at home it means the loss of a thousand votes, and probable the loss of the election. Hence the importance of every Democrat going to the polls, and of seeing that his Democratic neighbor goes. In the country precincts there are old and decrepit voters who will vote the ticket if they get to the polls, but who have no way of getting there. See that means of conveyance are provided for such. In fact, give this one day to the service of the party and thus to the service of the country.—Winchester Democrat.

It is reported that Governor Willson intends to call an extra session of the Legislature in December for the purpose of enacting legislation to give Kentucky an equitable tax system and to further the good-roads movement.

Importance of the Study of Forestry.

The State Federation of Women's Clubs has interesting outlines for courses of study in forestry for use in schools or Women's Clubs.

The importance of the study of forestry is well illustrated in the Proclamation by President Roosevelt (while in office) to the school children in the United States. "Arbor Day" (which means "Tree Day") is now observed in every State in the Union, and mainly in the schools.

It is well that you should celebrate your Arbor Day thoughtfully, for within your lifetime the National need of trees will become serious.

If you neglect to prepare yourselves now for the duties and responsibilities which fall upon you later, if you do not learn the things you will need to know when your school days are over, you will suffer the consequences. So any nation which in its youth lives only for the day, reaps without sowing and consumes without husbanding, must expect the penalty of the prodigal, whose labor could with difficulty find him the bare means of life.

A true forest is not merely a storehouse full of wood, but as it were a factory of wood, and at the same time a reservoir of water. When you help to preserve our forests or plant new ones you are acting the part of good citizens. The value of forestry deserves, therefore, to be taught in the schools, which aim to make good citizens of you. If your Arbor Day exercises help you to realize what benefits each one of you receives from the forests and how by your assistance these benefits may continue, they will serve a good end.

American Tobacco Company Sued.

The Commonwealth of Kentucky, through B. S. Huntsman, Auditors Agent, has sued in the Franklin Circuit Court, the American Tobacco Company, seeking to recover sums aggregating \$6,000 claimed to be due the state as incorporation taxes and yet unpaid.

The petition sets out that the authorized capital of the American Company is \$180,000,000 and that it only reported to the state and paid \$118,931,500, its "issued capital stock" for the years 1907-8-9 and 1910. The law requires payment of incorporation taxes on "authorized capital stock".

The Clay City National Bank has a new ad. in this issue, that should be thoughtfully read by every reader of this paper. This bank has been doing business here for twenty years and has never been disappointing to any of its customers. Your money is perfectly safe when placed there and when in their Savings department it becomes a safe and sure earning power. Start an account today; no matter how small it may be.

Hallowe'en Party.

Misses Johnsons entertained at the Central Hotel Monday evening with a beautiful Hallowe'en party. The event was one of the most brilliant and enjoyable occasions given in Clay City for many days. The building was lighted with jack o'lanterns, and the guests were masked as ghosts, making a weird scene. The decorations were: autumn boughs and corn shocks. Delicious refreshments of fruits were served at 10:30. The evening closed with an old fashion dance, which every one enjoyed. Those present were: Mr. and Mrs. C. Shinfessel, Mr. and Mrs. W. T. McGuire, Mr. and Mrs. L. Loving, Mr. and Mrs. A. T. Whitt, Dr. and Mrs. Wm. C. Martin, Mr. and Mrs. T. P. Mountz, Mr. and Mrs. E. C. Vallner, Mesdames J. D. Williams, E. N. Wilson, T. J. Eletcher, J. H. Burgher, C. Hazelrigg, E. N. Earnest, Misses Bernice Clark, Bertha Mapel, Maud Fletcher, Josephine and Adaline Hazelrigg, Edna Earnest, Lula Mae Bowman, Carrie Barnett, Maud Warmouth, Etta Roberts, Maud Hamonds, Grace Shinfessel, Messrs. Joe Mountz, Pierce Keith, Tom Shinfessel, George Fletcher, Gran Hackworth, Pat Henry, Ed Wilson, A. T. P. Pitt, Emerson Conlee, Orate Johnson, Dora Woods, Sam Esskeed.

The little three-year old son of Mr. and Mrs. Wm. Baugh, of this city, died Tuesday of membranous croup. Burial Wednesday at Eaton graveyard.

Wood Pulp.

Over 4,000,000 cords of wood were used in the manufacture of wood pulp for paper making in the United States in 1909, as shown by the annual report of the industry issued a few days ago by the census bureau. The cost of the transformation of wood, of which there was 4,002,000 cords was \$34,487,000. This was an increase of about 50,000 cords over the consumption of 1909, but of only about 39,000 over 1907.

The advancing cost of pulp wood of all species is brought out in the report. The total consumption in 1909, though, exceeding that of 1907, by less than 40,000 cords, and the cost was over \$2,000,000 more.

What the Payne-Aldrich Tariff is Costing the Farmer.

"When the Payne-Aldrich tariff bill went into effect," says F. S. Monnet, Democratic candidate for Congress in the 12th Ohio district, "the farmers of Franklin county, Ohio, were receiving 80 cents to 90 cents for corn. The September option has just closed at 48½ cents per bushel, a difference of 66 per cent. of the value of the farmer, in less than two years, and only 35 cents per bushel offered for the new crop.

"Last year, September wheat sold at Chicago, at the close of the market, at \$1.20. This year it sold at 93½ cents, a difference of 29 per cent.

"Last year, I received 33½ cents per pound for my clip of Ohio wool. This year, the best I have been offered is 22 cents to 25 cents per pound, for the same grade of wool, a difference of about 33 per cent. of my income.

"Last year, September oats closed at 48 cents per bushel in the Chicago market, and this year at 31½ cents, a difference of 52 per cent., or more than one-half of my income from oats.

"Woolen blankets from the same wool have increased 25 per cent.; wire nials, made by the United States Steel Trust, and wire fence, are 40 per cent. higher than before the trust fixed the arbitrary prices.

"Farm machinery, mowers, reapers and the repairs thereon, wagons, engines, and manure spreaders are selling from 50 per cent. to 150 per cent. more than they cost, under the manipulation of the International Harvester Company.

"Now, under the tariff bill, the farmers of Franklin county, get no protection upon their hay, their oats, their wheat, or their corn, because they export 24 per cent. of these products.

"Therefore, the tariff in no way protects any of the farmer's products, except wool, and with a tariff of 11 cents per pound, wool forthwith shrank 8½ cents per pound, in Ohio.

"These figures can be verified from Moody's Manual, or by inspecting Otis & Hough's records at Columbus, Ohio, or any other reliable financial house in the city."

Do you believe a man who refuses to pay his tax is fit for a

Congressman? Do you believe a man receiving \$7,500 per year as an official of this government, and then must by turned delinquent—can't pay his poll tax—is fit to represent his people? If you don't believe this vote for A. Floyd Byrd Tuesday.

Colonel Roosevelt refuses to speak at any place where an admission fee is required. Nevertheless, Col. Roosevelt may one day earn a fortune on the lecture platform by appearing in silence for an hour, spectators paying one dollar to see the how. They would get ten times their money's worth.

Why does Langley have to have an affidavit in his pocket to support every statement that he makes? Is it because he has told so many different tales and made so many promises that he couldn't be believed except when under oath?—Jackson Times.

Langley is armed with affidavits to substantiate some of his statements. Why is this necessary? Because he knows the people will refuse to believe a single statement he makes. They know "Promissory John", yes they know him well.

Mr. Roosevelt says he will not be king, but he does say that he will not run for President again if he gets the chance and make the job permanent. That is the way Caesar did, and it took Dr. Brutus and a knife to separate him from it.

Vote for Byrd next Tuesday. You will at least have the satisfaction of knowing you supported a man who tells the truth and whose word is as good as his bond, and who always pays tax promptly.

Colonel Bryan is not making his customary number of speeches this year. Perhaps he hesitates to say anything through fear that Colonel Roosevelt will appropriate it.

The population of Vermont grows slowly. In fact it is almost at a standstill. It appears to be somewhat difficult to raise Republicans nowadays.

The Indiana Democrats suggest that Colonel Roosevelt call himself into convention and adopt a platform on which he can stand wherever he goes.

Promissory Langley and Pardoned Powers would be two mighty excellent men to leave at home.—Owensboro Messenger,

Deafness Cannot Be Cured by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Vital Washington News.

Indications are that Democratic candidates in all parts of the United States will this year sweep in a very large Republican vote.

Within the last six months the writer has traveled from Maine to California and back again, interviewing scores of Republicans in all sections. There is a dissatisfaction in Republican ranks that has not been so acute in many years.

The people blame the Republican party principally for two things.

1. For permitting Joseph G. Cannon to be speaker of the House, and for allowing Nelson W. Aldrich to dominate the Senate.

2. For increasing the tariff, for which there was no need.

That Democratic candidates will profit from a great silent vote is evident. A form reversal from one end of the country to the other, such as occurred in Maine, Massachusetts, New Hampshire, New York and Missouri, should cause no surprise to the Republicans. Everywhere the signs of the times are ominous for the G. O. P. And everywhere the Democrats are encouraged and aggressive, and in most sections the Democrats are working in perfect harmony.

A prominent retail merchant

of Rock Island, Ill., expressed the view of a large element of the Republican party in these words:

"Although I am a Republican, I am going to vote the Democratic ticket. I am going to do it for the good of the dry goods and the good of the people who buy dry goods. We are getting tired of having to meet a woman in our store with the statement that the price of staple cottons has again gone up 2 cents a yard.

"While we can not come out publicly and take a hand in politics for business reasons, I am advising all my Republican friends to vote the Democratic ticket.

"Men who deal in dry goods, groceries, hardware, etc., regardless of whether they are Republicans or Democrats, know well enough, despite all arguments to the contrary, that the increased prices are due to the tariff. If this is not true, how does it come that an advance in the cost of living has accompanied every upward tariff revision in the history of the country.

"The increased tariff, for which there was no need, and which was passed by a Republican President, Republican Senate and Republican House, has increased prices, and every man who voted for that bill ought to be defeated. And most of them will."

Your table bill has doubled; have your wages doubled? You pay 100 per cent. more for your clothing, blankets and household goods; has your salary kept pace with the increased cost of living? Your rent is higher and your fuel is higher; how much higher is your weekly wage check? Don't you think you had better put the trusts that have doubled the cost of living out of business?

The cost of clothing has increased 63 per cent. in the last 10 years. Here is a table which tells its own story:

	1900	1910
1 pr. 5 lb. all wool blankets	\$3.75	5.00
5 yd. blue serge, 50 in wide	3.75	6.25
20 yd. unbleached cotton	1.20	2.40
5 yds. muslin	.45	.75
5 pieces long cloth	3.75	5.25
3 yd cotton and wool flannel	1.50	2.70
5 yds. all wool flannel	2.75	6.25
3 yds. cashmere	1.50	3.00
5 yds. cheviot, all wool	7.50	11.25
